Volunteers Upgrade Post Ballroom Lighting, Sound

Eleven volunteers recently spent three 10-hour days (Aug. 22-24) making electrical wiring improvements to the Post Ballroom to upgrade the dimmable rope lights as well as control rope lights and DJ lights with separate switches. The room's rear speakers were also relocated and tested to improve sound quality and reduce speaker volume in the bar and entranceway.

Although no one tracked the cleanup time associated with doing all the work, needless to say, crawling around in the ceiling and under the stage created an enormous amount of dust and debris.

A shout out of 'thanks' to Dave Gordon, Jeff Rahn, Bob Byrd, Mark Williams, Rich Kopels, Page Henderson, Julian Glantz, Jeff Anderson, Thomas Williams, Elizabeth Williams and Freda Hammond.

Now that the upgrades are in place, Gordon notes that all DJs, event coordinators, bingo coordinators, and others who use the electrical system will need to learn how to adjust the sound system including using the Sonic Tools app to determine speaker volume and the EV speakers app to adjust volume and muting. He will be scheduling a training session, so please get in touch with him at 864-364-0356 to discussing training times and dates. He is willing to work with individuals, but would prefer to do group sessions if possible.
